Grandpa loves fishing. He started fishing when he was 6 years old, and he's still fishing 60 years later. "Can we go fishing together, Grandpa?" I asked one day. "All right," said Grandpa. "Be ready at 5:30 a.m. tomorrow." "5:30 in the morning?" I said. "Yes, I'll pick you up in my old truck," Grandpa replied.

It was hard to get out of bed so early, but traveling in Grandpa's truck was pretty cool. When we got to the lake, Grandpa told me to buy some bait\* while he got the boat ready. Putt, putt, putt, out onto the lake we went. It was really beautiful. "Wow Grandpa, I can see why you like fishing," I said. "It's nice out here." "Wait until you catch a fish, Anna!" said Grandpa, smiling.

\*bait: food used to catch fish or other animals

Nature connects many things. And small changes in nature often bring unexpected results. There's a popular story about this idea. Here's how it goes.

In 1955, a Borneo tribe had a problem: malaria. Mosquitoes spread this disease, and it was dangerous.

The tribe called the WHO. **(1)** The tribe took the advice, and the mosquitoes died. But many other insects died too. Then lizards ate the sprayed insects, cats ate the lizards, and the cats died. **(2)**

Without cats, the number of rats grew out of control. Now Borneo had a huge rat problem! **(3)**

To solve this, the UK used parachutes to drop boxes of cats. **(4)** The cats killed the rats. Finally, things went back to normal.

It's not clear how much of this story is true. But it's still a good example of how nature connects all life.

**29** Where does the following sentence fit best?

They suggested a solution: spray mosquito-killing chemicals.

- (a) (1)**                      **(b) (2)**                      **(c) (3)**                      **(d) (4)**

**30** Which is **NOT** true?

**(b)** Mosquitoes spread malaria.  
**(c)** The UK dropped boxes of cats to kill the mosquitoes.  
**(d)** A Borneo tribe solved a huge rat problem.

► [31–32] Read and choose the correct answer.

Smallville had one butcher, Jones, and one baker, Brown. Their business did well until the Big-Box Superstore opened nearby. Big-Box was cheaper!

Big-Box bought lots of food at once. So they got big discounts from farms. Then they sold everything at lower prices and still made good money.

But Jones and Brown only bought small amounts. So they didn't get big discounts. They couldn't sell at low prices, and they started losing customers.

Jones complained. "Don't shop at Big-Box!" he yelled at passersby. No one listened.

But Brown didn't complain. Instead, he checked the bread at Big-Box. Then he baked only  kinds. "You cannot find this at Big-Box!" he said. "It's special!" People listened to that.

Soon, new people started coming to Brown's. They wanted special bread. And they paid more for it.

**31** Choose a word for .

- Ⓐ cheap                      Ⓑ expensive                      Ⓒ same                      Ⓓ different

**32** Which is **NOT** true?

- Ⓐ Big-Box bought lots of food at once.  
Ⓑ People listened to Jones's complaint.  
Ⓒ Jones and Brown didn't get big discounts.  
Ⓓ Big-Box sold food at lower prices than Brown's bakery.

► [33–35] Read and choose the correct answer.

Your body is an amazing machine. How does it work? Bones and muscles work together, like an arrow and a bow.

Bones hold your body up. They're hard and don't bend, like an arrow.

Muscles make your body move and keep your balance. Muscles bend and stretch. Then they return to their old shape, like a bow.

Imagine a stretchy arrow and a bow that can't bend. That won't work!

If you have no bones and muscles, what happens?

Without bones, you fall down! You're like a jellyfish!

Without muscles, you're a bag of bones. You can't balance. You're like a tree with no roots. The wind tips you over, and you can't get up!

Trees don't have things like muscles, so they can't move. Jellyfish have no bones, so they can't stand up.

It's good to be us!

- 33** What is the passage mainly about?
- (a) ways to build muscles
  - (b) a life without bones
  - (c) the important roles of muscles and bones
  - (d) shapes of trees and jellyfish

- 34** Which is **NOT** true?
- (a) Muscles work like a bow.
  - (b) Bones help you balance.
  - (c) Bones are hard and don't bend.
  - (d) You would fall down without bones.

- 35** Fill in the blank with the correct word. Use a word from the passage.

If we have no \_\_\_\_\_, we can't balance, like a tree with no roots.
